Composites Atlantic Limited (CAL) has earned a reputation as a leader in the design,

testing, certification and manufacture of advanced composites for the aerospace, space, defense, and commercial industries. We are present in both the national and international market since 1988.

Our team of over 400 personnel, serves our customer base and new markets with experience in project management, systems engineering, design, testing, certification, procurement,

quality assurance and manufacturing. Our new facility consists of 130 000 square feet dedicated to manufacturing and 30 000 square feet for Engineering and Project Management. We utilize the most advanced equipment and technology to support our customer base.

Composites Atlantic Limited (CAL) and [Composites Aquitaine](#), both subsidiaries of EADS Sogerma Services, transfer technology and know how through joint efforts and R&D. This collaborative relationship provides new products and ideas, leading us into the future.

HISTORY:

Composites Atlantic Limited (CAL) is a new company in partnership with EADS Sogerma Services and the Province of Nova Scotia. The company was initially started in 1987, known then as Cellpack Aerospace Limited, a subsidiary of Cellpack AG of Switzerland.
